To Provide **Safe&Reliable** Products and **Smart&Complete**
Solutions for Clients in Fluid Conveying Industry Across the Globe.

- **Enterprise mission**

To provide safe and reliable products and complete solutions for clients in fluid conveying industry across the globe

- **Global market**

Products are distributed to more than 130 countries and regions with complete specifications and excellent quality

COMPANY PROFILE

Archung is the creator of thin-wall stainless steel double-press technology and one of the earliest domestic enterprises that is engaged in R&D, production, sales and service of stainless steel piping system.

In 1999, Archung was founded in Hong Kong, and the same year it successfully invented double-press technology and obtained its patent. In 2003, Shenzhen Archung was established and has managed to acquire successively certification of quality system, environmental management system, occupational health safety control system, 6S management system, intellectual property management system China engineering construction testing, the five-star after-sales service, AAA corporate credit ratings, and was accredited as national high-tech enterprise. In 2019, Archung joined Meide Group, and was reestablished as Meide Archung Group Co., Ltd. Today, the company has developed into an enterprise group with full product ranges including stainless steel pipes, fittings, grooved fittings, ring lock scaffold, photovoltaic bracket, seismic hangers and accessories, etc., covering water, gas, fire protection, HVAC and other industries, providing customers with one-stop service that integrates consultation, design, installation, guidance and service.

The company is headquartered in Shenzhen and has modern industrial park in Zhaoqing (Guangdong Province), Hebi (Henan Province) and Jinan (Shandong Province), with a total area of 8.7 acres and more than 500 employees. It has the most advanced automatic production lines with complete product specifications in line with a variety of domestic and foreign technical standards. We have obtained more than 50 patented technologies and participated in the drafting of 38 national and local standards, with 9 of them Meide Archung was the chief editor, and our products have been certified by WRAS, CE, FM, UL, CRN, etc.

The products of Meide Archung are widely applied in many landmark buildings such as Shanghai Tower, the tallest building of China, Gaoyin 117 Tower, Shenzhen Ping'an International Finance Center, the world's largest airport-Beijing Daxing Airport, etc. At the same time, our products are also widely used in thousands of projects in water, gas, fire, HVAC, construction and other fields.

Meide Archung adheres to the enterprise spirit of hard working, pioneering, hardship bearing and innovation, and the core values of customer-centered, quality-oriented, innovation-driven development and win-win cooperation, to provide safe and reliable products and smart complete solutions to clients in fluid conveying industry across the globe.

PRODUCTION SCALE

In 2008, Meide Archung Group Co.,Ltd. built a modern manufacture base in Zhaoqing, Guangdong province, which covers an area of 2.5 acres. Meanwhile, the second industrial park was built and put into use which covers an area of 3.7 acres in Hebi Henan, province in 2016. The production scale of Meide Archung Group Co.,Ltd. is in the forefront of the industry.

Universal testing machine

Salt spray testing machine

Ultraviolet spectrophotometer

Spectral analyzer

Metal hardness tester

Intergranular corrosion tester

Hydro forming machine

Automatic feeding machine

Mahler's solution furnace

Automatic bending machine

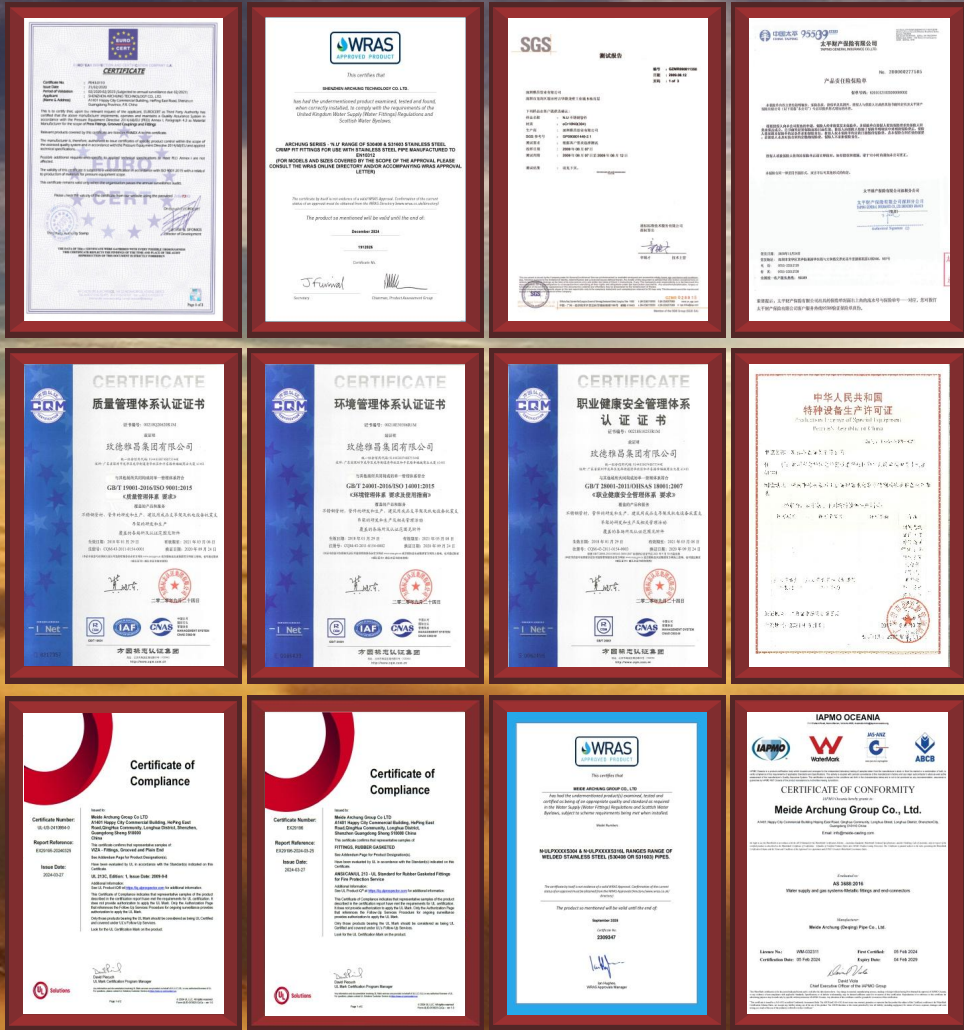

Wet and dry industrial circular polishing machine

Water separator automatic welding machine

QUALIFICATION CERTIFICATE

- PRC special equipment manufacturing license
- Related to the sanitation and safety of drinking water products sanitary permit
- ISO9001, ISO14001, OHSAS1800 certification
- WRAS UK water product certification
- AAA credit enterprise certificate
- SGS salt spray corrosion resistance test
- Product quality liability policy
- National high-tech certificate

TESTINGREPORT AND CERTIFICATE OF HONOR

- Pipe fitting sanitary testing report
- Pipe sanitary testing report
- Pipe fitting quality testing report
- Pipe quality testing report
- Seal ring testing report
- Utility patent certificate
- National new hi-tech enterprise identification certificate
- Member of China urban gas association
- Member of China construction metal structure association

COMPANY QUALIFICATION

IMPLEMENTATION STANDARDS

APPLICATION

Suitable for ordinary pipelines that transport media such as steam, air, gas, water, oil, etc.

SURFACE TREATMENT

As casting

APPROVALS

To be continued

WORKING PRESSURE

2.0 Mpa

DESIGN STANDARD

Pipe ISO 559 Steel tubes for water and sewage
Fitting ISO 4144 Pipework-Stainless steel fittings threaded in accordance with ISO 7-1, MOD
Thread ISO 7/1: 1994 Pipe threads where pressure-tight joints are made on the threads Part 1; Dimensions, tolerances and designation

MATERIAL

Austenitic stainless steel 304 is applied in normal cold and hot water system, direct drinking water system. 304L, 316, 316L, are also selected according to different projects' needs.

TEMPERATURE

Suitable temperature for normal cold/hot water supply and direct drinking water supply: -40F~230F
